member of MEDIREX GROUP

1/5

Procedure	Price for self-payers (out-of-pocket price) in EUR
DIAGNOSTIC SERVICES FOR WOMEN	
Test of the ovarian reserve (AMH + AFC)	50
Gynecology ultrasound check-up	30
Ultrasound examination of fallopian tube patency (HyFoSy)	180
Uterine NK cell test	200
BeREADY endometrial receptivity test (including sample collection)	600
DIAGNOSTIC SERVICES FOR MEN	
Semen analysis	
Comprehensive semen analysis following the WHO guidelines	35
Comprehensive semen analysis following the WHO guidelines - sperm analyzer	50
Functional sperm test	
Trial wash test	50
Test for sperm antibodies in ejaculate	70
Sperm DNA integrity test - HALOSPERM	130
Sperm DNA integrity test over time - Dyn Halosperm	250
Oxisperm	60
Vital Test	40
SpermPack - comprehensive examination of the semen analysis (concentration, motility, sperm morphology, sperm antibodies, sperm DNA integrity test, Oxisperm, Vital Test).	250
DIAGNOSTIC SERVICES FOR COUPLES	
Postcoital test - sample collection	30
Collection of venous blood	5
Serology package (HBsAg, HIV, syphilis, anti-HCV and anti-HBC total)	45
Treatment of infertility	
Intra-uterine insemination with the partner's sperm (IUI)	160
Intrauterine insemination with donor sperm (IUD)	400
Monitoring of gonadotropin stimulation before the IUI	50
Intraovarian application of ACRS/PRP including general anaesthesia	500
Intrauterine PRP application	250
Monitoring within the scope of the stimulation (IVF, IUI)	250
IVF	
Conventional IVF cycle (basic treatment)	
Standard IVF cycle (oocyte retrieval and embryo transfer under anesthesia)	1200
Standard IVF cycle without embryo transfer to the uterus	900
Oocyte retrieval with failure to acquire any oocytes	500
Interruption of the cycle before oocyte retrieval	190
IVF - soft cycle (short-term hormonal stimulation using lower doses)/IVF - native cycle (without hormonal stimulation)	
Oocyte retrieval with embryo transfer	800
Oocyte retrieval without embryo transfer	600
Oocyte retrieval with failure to acquire any oocytes	500
Interruption of the cycle before oocyte retrieval	180
Additional charge for general anesthesia at OPU (oocyte pick-up)	70
Duostim IVF cycle	1600

2/5

Procedure	Price for self-payers (out-of-pocket price) in EUR
PROCEDURES PERFORMED DURING IVF	
Oocyte fertilization techniques	
Intracytoplasmic Sperm Injection (ICSI) 1 - 3 oocytes	280
Intracytoplasmic Sperm Injection (ICSI) of 4 - 15 oocytes	500
ICSI - each oocyte over 15	30
Intracytoplasmic Injection of Morphologically-Selected sperm (IMSI) * Košice facility only	150
Oocyte activation prior to ICSI	150
Sperm activation prior to ICSI	120
Fertilization of eggs using the ICSI method with the Oosight system - spindle view (ICSI is always necessary)	300
Sperm selection method	
Hyaluronic acid binding sperm selection PICSi	150
Magnetic-Activated Sperm Sorting (MACS)	300
Combined sperm selection by MACS + PICSi	400
Microfluidic Sperm Sorting (MSS)	300
Combined sperm selection MSS + PICSi	380
Methods of embryo culturing	
Prolonged culture (embryo culture by day 5 - 6 of development)	280
Time-lapse system for continuous embryo monitoring	360
Continuous embryo monitoring after thawing prior to KET	175
Continuous embryo monitoring with Time-lapse system + prolonged culture	600
Embryogen (embryo culture 3 days)	100
Embryogen/Blastgen (embryo culture for 5 days)	120
Individual cultivation of embryos in a chamber incubator	200
In vitro oocyte maturation	500
Additional methods in embryo transfer	
Laser Assisted Hatching (AH)	200
Laser-Assisted Zona Thinning (LAZT)	200
Embryo glue	150
Combined laser assisted hatching + embryo glue	300

Procedure	Price for self-payers (out-of-pocket price) in EUR
DONOR PROGRAMS	
Oocyte donation program	
BASAL PROGRAM (donor selection and stimulation, ICSI, chamber incubator, guarantee of 6 mature oocyte, no guarantee of blastocysts, freezing of the resulting embryos not included in the price)	4 600
Cryopreservation of the first embryo	180
Cryopreservation of each additional straw with an embryo	70
OPTIMAL PROGRAM (BASAL program + Time-lapse system, guarantee of at least 1 blastocyst*, 1st embryo transfer AH + EG, cryopreservation of one embryo included)	5 100
Cryopreservation of each additional straw with an embryo	70
PREMIUM PROGRAM (OPTIMAL program+ MACS/MSS, guarantee of 8 mature oocytes, fertilisation with Oosight spindle view, guarantee of at least 2 blastocysts*, cryopreservation of all embryos produced)	6 300
*more than 5 million sperm/ml, at least 1% normal sperm, at least 10% motile sperm, sperm DNA fragmentation less than 30%, partner under 50 years of age	
A higher number of oocytes in programs with DO guaranteed	750
Embryo donation program	
Cryoembryotransfer of the donated embryo (donated oocyte + donated sperm), 1 blastocyst guaranteed	1 800
Cryoembryotransfer of a donated embryo (donated oocyte + donated sperm) - genetically screened embryo	2 500
Receipt of donor sperm within the scope of IVF	250
Reservation of a donor embryo for 1 year	120
Reservation of donor sperm for 1 year	120
CRYOPRESERVATION OF SEX CELLS AND EMBRYOS	
Embryo cryopreservation (freezing) and storage	
Cryopreservation of the first blastocyst/straw	200
Cryopreservation of each additional straw with blastocysts	80
Storage of embryos/oocytes/sperm/testicular tissue for each year started	150
Storage of embryos/oocytes/sperm/testicular tissue in separate quarantine container for each year started	200
Cryopreservation of oocytes	
Social freezing (egg freezing without medically indication) ovarian stimulation and oocyte collection	1 250
Cryopreservation of oocytes, 1 - 2 straws with oocytes	400
Cryopreservation of 3 - 4 straws with oocytes	500
Cryopreservation of 5 or more straws with oocytes	600
Fertilization of cryopreserved oocytes, embryo culture and subsequent transfer of the embryo to the uterus	650
Fertilization of cryopreserved oocytes, embryo culture, without embryo transfer	350
Freezing of sperm and their storage	
Freezing of sperm at the patient's own request and storage for 1 year	150

Gyncare pricelist

4/5

Procedure	Price for self-payers (out-of-pocket price) in EUR
THAWING AND TRANSFER OF GERM CELLS AND EMBRYOS	
Transfer of the thawed embryo to the uterus (CET)	400
Revitrification of a thawed embryo	100
Embryo thawing without subsequent transfer	80
Administrative fee for the preparation of documentation for the transport of biological material between tissue processing facilities - in Slovakia (over 30 km), including storage of the transported biological material for 1 year	200
Administrative fee for the preparation of documents for the transport of biological material between tissue processing facilities - abroad (within EU), including storage of the transported biological material for 1 year	600
Administrative fee for the preparation of documents for the transport of biological material between tissue processing facilities - abroad (outside the EU), including storage of the transported biological material for 1 year	900
Administrative fee for the preparation of documentation for the export of frozen biological material abroad	200
PREIMPLANTATION GENETIC EXAMINATION OF THE EMBRYO	
Embryo biopsy	400
PGT-SR screening of structural changes of chromosomes (simultaneous aneuploidy screening) with NGS method – 1 embryo	350
PGT-A aneuploidy (24 chromosomes) using the NGS method - 1 embryo	350
PGT-M screening of monogenic disorders by karyomapping method - screening of reference samples + preparation	1 650
PGT-M screening of monogenic disorders by karyomapping method – each embryo	400
PGT-M screening of selected monogenic disorders by OneGenePGT method – screening of reference samples + preparation	1 200
PGT-M screening of selected monogenic disorders by OneGenePGT method – each embryo	350
Direct detection of mutations in the embryo by karyomapping	600
OUTPATIENT SURGERY (SAME-DAY SURGICAL INTERVENTIONS)	
Extirpation and excision of benign and malignant skin, subcutaneous tissue, and muscle tumors	100
Cervical conization	350
Vulvar excision - only as a therapeutic procedure in general anesthesia	350
Vaginal septal resection	290
Hysteroscopy (+ possible resection of uterine septum)	400
Curettage, including dilation	320
Review of the uterine cavity after miscarriage	320
Puncture of ovarian cysts	160
Excision from the vaginal wall for histology	220
Ablation of cervical polyp	260
Extirpation of skin tumors on external genitals	150
MESA/TESE surgical sperm retrieval	500
Selection of the operating surgeon, consultation	60
SERVICES OF A GYNECOLOGICAL OUTPATIENT CLINIC	
Consultation requested by the patient	50
Gynecological check-up requested by the patient	20
Pregnancy check-up requested by the patient	15
Insertion of an intrauterine device	20
Cytological smear from the cervix (slide)	10
Cytological smear from the cervix (liquid base cytology) + sampling material	35
Pipeline (endometrial scratching)	30
Slow hygroscopic dilation of the cervix	20
Intrauterine drug administration	20

Gyncare pricelist

5/5

Procedure	Price for self-payers (out-of-pocket price) in EUR
CONSULTATIONS	
Consultations by external specialists	
Initial genetic/immunological/urological consultation	50
Follow-up genetic/immunological/urological consultation	25
IVF consultations	
Repeated consultation at the request of patients in the Slovak language	60
Consultation for couples conducted in a foreign language (IVF coordinator)	100
Consultation for couples conducted in a foreign language - physician	200
Online consultation conducted in a foreign language (Teams, WhatsApp, etc.)	60
Complex of consulting activities for foreign patients	250
GENETIC SCREENING TEST	
TRISOMY test	350
TRISOMY test XY	390
TRISOMY test +	450
TRISOMY test Complete	530
TRISOMY test Complete + CF (Cystic fibrosis)	590
TRISOMY test Complete + SLOS (Smith-Lemli-Opitz syndrome)	635
TRISOMY test Complete + CF + SLOS	695
Basic panel of genetic testing in the diagnosis of infertility an individual/couple	450/850
Expanded panel of genetic testing in the diagnosis of infertility an individual/couple	600/1100

The prices listed in the price list for individual services are final.

Prices for medicines and other procedures performed outside GYN CARE are not included in the price for procedures.

Payments are made on the day of treatment at GYN CARE.
